|------|--|------|-------|
| SIDE | TOP | SIDE | FRONT |
| | A top-down view of the traffic box. It shows a large rectangle with a small circle on the left side, a horizontal rectangle in the center, and three vertical bars of varying heights on the right side. | | |

BACK

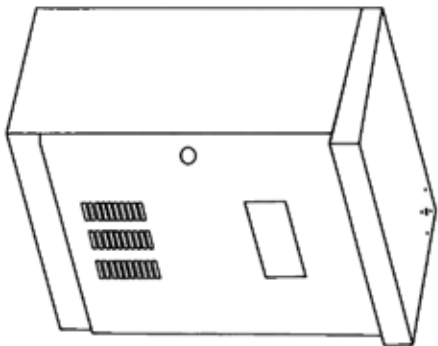

Traffic boxes or cabinets are approximately: W: 42" x L: 26" x H: 55"

Build a Mini Traffic Box: Craft Project

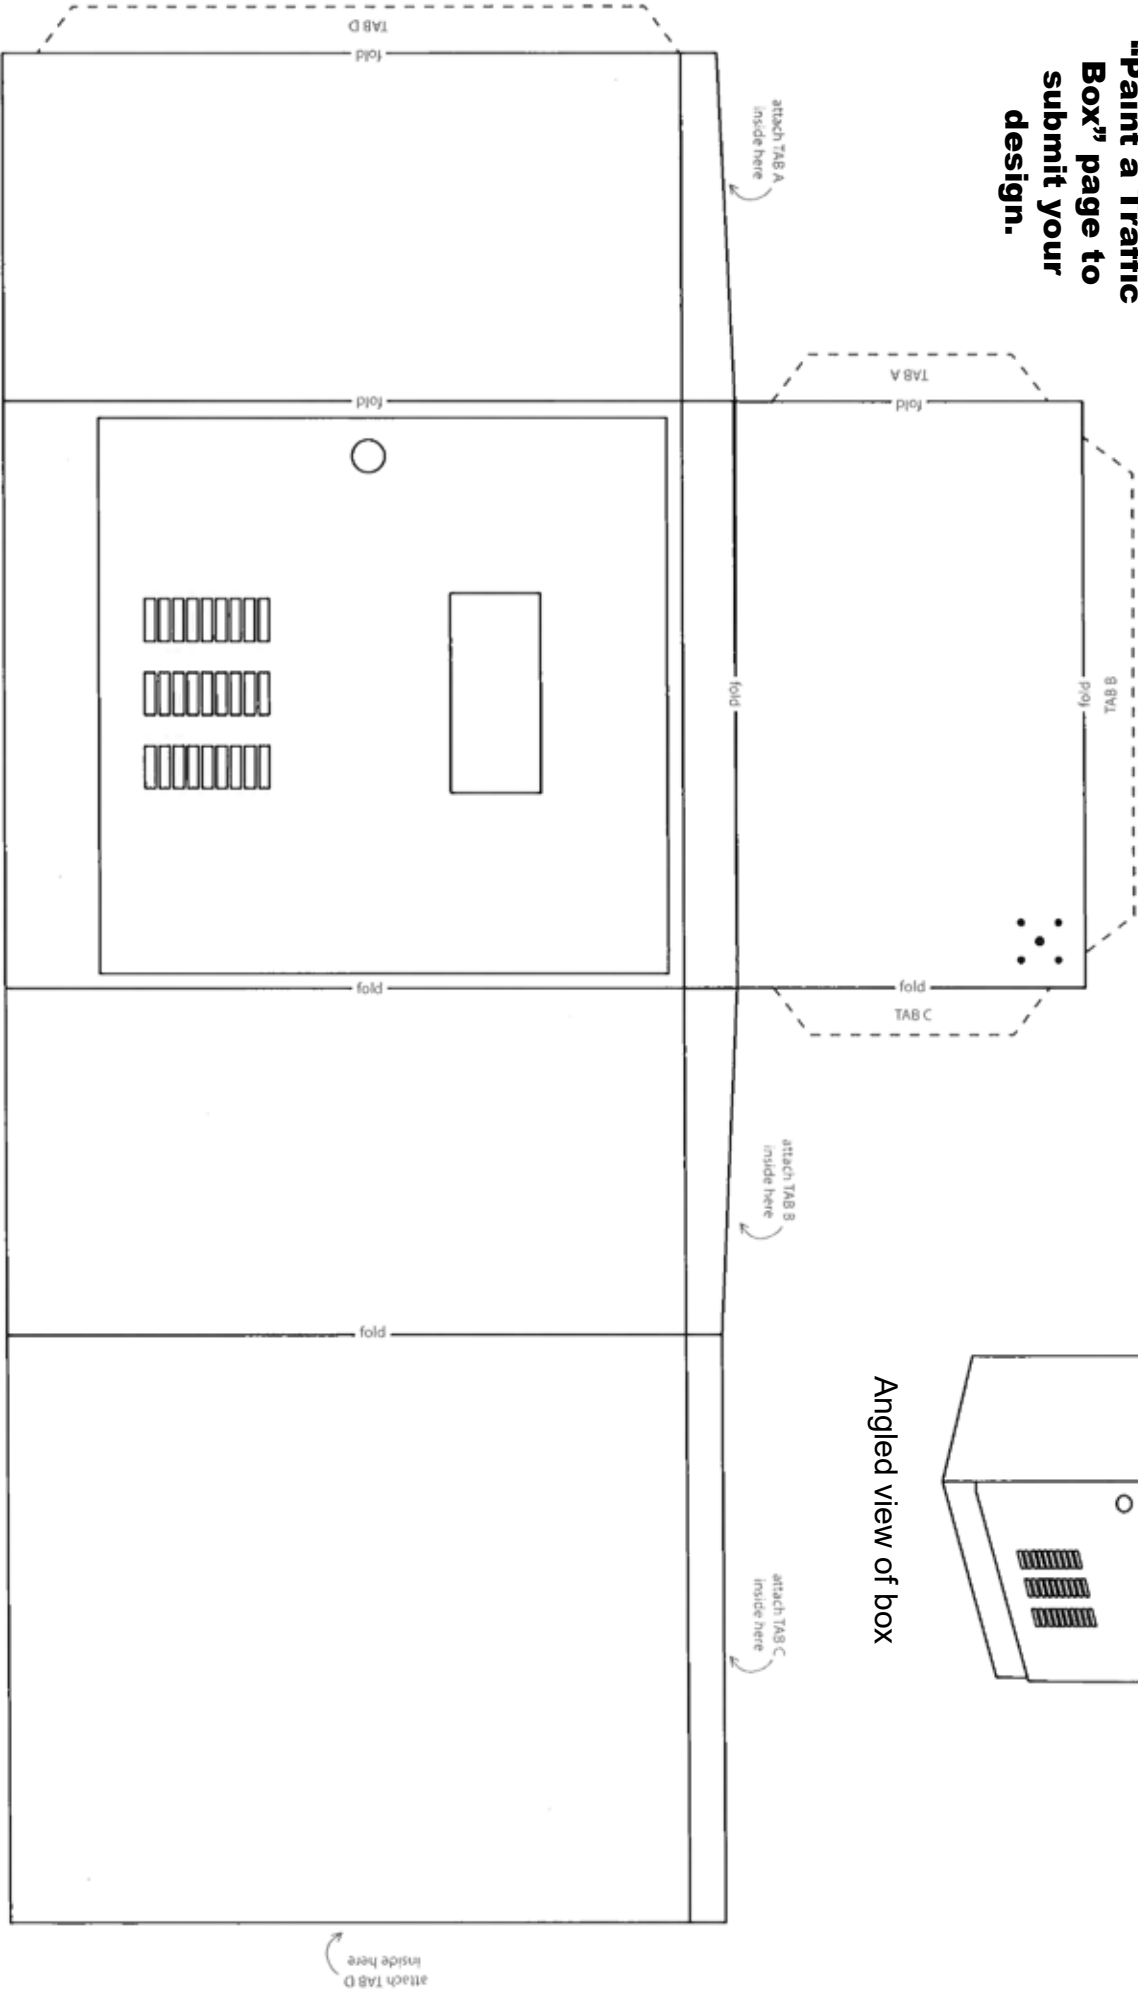

Test out your design in 3-D by cutting around the dotted lines and taping this box together. This is also a fun project for children!

**Please use page 1,
"Paint a Traffic
Box" page to
submit your
design.**

Color a Traffic Box: Coloring Page for Kids

If you could make a big tall traffic box look however you wanted, what would you do? Color this box as creatively as you can and imagine how it would look in real life!

Please use page 1, "Paint a Traffic Box" page if you are submitting a design for consideration.
